

HEARING EXAMINER'S ON-THE-RECORD DATA REQUEST
ISSUE 46 - COORDINATED HOT CUTS

Data Request: With regard to the charge for the Dial Tone/Automatic Number Identification Test ("DT/ANI") tests that Ameritech Illinois performs for CLECs on a customized basis for coordinated hot cuts, the Hearing Examiner asked when the clock would start on the technician's time to determine the per-quarter-hour charges associated with those tests.

Response: The clock on the technician's time would begin running when the technician begins working on the DT/ANI test in the central office.
